

PUBLISHED PAPERS

Ulrich H. Schaeppi, M. D.

1953 - 1963

1. Dissertation. On the cancerogenic effect of methyl violet (Methylrosaniline Chloride). U. Schaeppi. Dis. University of Berne, 1953.
2. Cholinolytische Wirkung einiger Phenothiazin-, Xanthen- und Anilin-Körper und ihre Beziehung zur chemischen Struktur. (Cholinolytic effect of some Phenothiazine-, Xanthen- and Anilin- derivatives in relation to their chemical configuration). U. Schaeppi and P. Waser. Arzneim.-Forsch. 8: 107-113, 1958.
3. Die Beeinflussung der Reizübertragung im peripheren Sympathicus durch Tofranil. (Interaction of Tofranil with the impulse transmission in the peripheral sympathetic system.) U. Schaeppi. Helv. Physiol. Acta. 18: 545-552, 1960.
4. Effects of pentothal on neural activity in somatosensory cortex and brain stem in cat. S. Yamamoto and U. Schaeppi. Electroenceph. clin. Neurophysiol. 13: 248-256, 1961.
5. The reaction of the isolated cat iris to serotonin. W. P. Koella and U. Schaeppi with technical assistance of S. Gustafson and A. Bloch. J. Pharmacol. Exptl. Therap. 138: 154-158, 1962.
6. Effect of neurohumors on the nictitating membrane of the cat. U. Schaeppi. Fed. Proc. 21: 330, 1962.
7. Comparison of serotonin with directly and indirectly acting compounds in their effect on the nictitating membrane of spinal cats. U. Schaeppi with technical assistance of S. Paddock and S. Gustafson. J. Pharmacol. Exptl. Therap. 139: 330-336, 1962.
8. Effects of electrical stimulation and serotonin on the contractility of the isolated pig iris. U. Schaeppi. Fed. Proc. 22: 461, 1963.

1964

9. Reaction of isolated pig iris sphincter to electrical stimulation and acetylcholine. U. Schaeppi and W. P. Koella. Am. J. Physiol. 206: 255-261, 1964.
10. Dual adrenergic control of the iris sphincter by beta relaxing and alpha contractile receptors. U. Schaeppi and W. P. Koella. Fed. Proc. 23: 125, 1964.
11. Adrenergic innervation of cat iris sphincter. U. Schaeppi and W. P. Koella. Am. J. Physiol. 207: 273-278, 1964.
12. Innervation of cat iris dilator. U. Schaeppi and W. P. Koella. Am. J. Physiol. 207: 1411-1416, 1964.

1005101243

1965

13. Non-ganglionic effects of nicotine in the pig iris sphincter. U. Schaeppi and Myrna Dodd. Life Sciences. 4: 1157-1160, 1965.
14. Effects of Chlorpromazine upon induced periods of tonic immobility in rabbits. U. Schaeppi and P. H. Rubin. Internat'l. J. Neuropsychiatry. 1: 71-75, 1965.
15. Evidence for the presence of alpha adrenergic excitatory receptors in the rat uterus. J. R. Brooks, U. Schaeppi and G. Pincus. Life Science. 4: 1817-1821, 1965.

1966

16. Postganglionic Nature of the Parasympathetic Innervation of the Pig Iris:Sphincter. U. Schaeppi. Am. J. Physiol. 210: 91-94, 1966.
17. Electrical stimulation of the isolated cat iris. U. Schaeppi, R. Rubin and W. P. Koella. Am. J. Physiol. (In Press).
18. Effect on level of vigilance of nicotine injected into the cat's 4th ventricle or cisterna magna. U. Schaeppi. Ann. N.Y. Acad. Sci. (In Press, 1966).
19. Changes in level of vigilance in response to administration of drugs into the 4th ventricle of the cat. U. Schaeppi and W. P. Koella. Fed. Proc. (In Press, 1966).
20. Non-ganglionic parasympathomimetic action of nicotine upon the isolated cat iris. U. Schaeppi, B. L. Dennison and M. Dodd. J. Pharmacol. Exptl. Therap. (Submitted for publication, 1/66.)
21. The mode of action of serotonin upon the isolated iris sphincter of the cat. W. P. Koella, U. Schaeppi and R. Rubin. J. Pharmacol. Exptl. Therap. (Submitted for publication, 1/66.)
22. New observations concerning the iris innervation. W. P. Koella and U. Schaeppi. (To be submitted to Science, 1/66.)
23. Effects of drug injection into the cat's fourth ventricle. U. Schaeppi and W. P. Koella. (In Preparation.)
24. A new electronic pupillometer. B. L. Dennison, U. Schaeppi and W. P. Koella. EEG clin. Neurophysiol. (To be submitted.)
